Dear Applicant,

Thank you for your interest in the on-job training opportunity within the Software Quality Assurance department at ATW Ltd. We are impressed by your enthusiasm and qualifications for this role.

As part of the application process, we have designed a task to evaluate your skills and potential in software testing. This exercise will help us understand your approach to identifying and documenting issues effectively.

## Task: Website Testing

**Website**: https://dubarter.com

Please test the following features on the website and report any issues or bugs identified:

**Search Functionality on the Homepage**: Verify that the search feature performs as expected, including accuracy of results and responsiveness.

**Cart Functionality**: Ensure the cart operates correctly, including adding, removing, and updating items, and that all related processes function seamlessly.

## Instructions:

- Perform thorough testing of the specified features.

- Write test cases to validate the functionality of the features.

## Document your findings in a bug report, including:

- A detailed description of the identified issues.

- Steps to reproduce the bugs.

- Screenshots for better clarity and evidence.

**<u>Deadline:</u>**

- Submit your report by Dec. 12, 2024, at 3:00 PM.

**<u>Additional Notes:</u>**

This task is for assessment purposes only and is not associated with any of the company's ongoing projects.

Please feel free to contact us with any questions regarding the task or the application process.

**Thank you for your time and effort. We look forward to reviewing your submission and considering you for this role.**

Best regards,

ATW Ltd.
